DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the lecture area" in line 15. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-12 are rejections based upon the rejection of the independent claim 1.

Allowable Subject Matter

3. Claims 1-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. The following is a statement of reasons for the indication of allowable subject matter:

The present application relates to an integrated digital platform includes a digital display unit adapted to display visual images, with a broadband device at the top side thereof, two glass whiteboards managed at left and right sides of the digital display unit, an electron beam track extended along the digital display unit and the glass whiteboards at the top side, an electron beam set in the electron beam track, a concealable inner layer provided at an inner side of one the glass whiteboard
